Clearstrip™

Gel Stripper for Paint, Varnish, and Coatings

Applications:

Clearstrip is a low-odor, environmentally safe paint and varnish remover designed to remove multiple layers in one application. As a gel, it clings well to vertical surfaces and absorbs the paint for easy clean up. It wets the paint surface for a long time, continuing to loosen the paint long after other strippers have dried and ceased to be effective. Will not raise wood grain. Use inside or outside on most rigid surfaces including wood, concrete, and brick. Clearstrip removes most paint, varnish, and coatings such as standard epoxy and polyurethane.

Features and Benefits:

- High-performance gel removes multiple coats of paint safely
- Non-caustic, non-flammable & biodegradable
- No harsh solvents
