

# Aboseal 8104-12™

## Flexible Heavy-Duty Polysulfide Epoxy

### Applications:

Used primarily for strong adhesion in heavy-duty applications. High performing thixotropic paste for sealing, filling, and resurfacing. Use on ship decks, bulkheads, runways, parking garages, commercial and industrial floors, driveways, sidewalks, and asphalt surfaces. Mix with sand or aggregate to make grout. Hardens in 2 hours or longer.

### Features and Benefits:

- Structural sealant for construction and industrial applications
- Creates strong adhesion on floors with heavy traffic
- Excellent for sealing, filling and resurfacing
- Bonds to a variety of surfaces, including concrete and asphalt
- Can be mixed with sand or aggregate to make grout

Manufactured By:

### Technical Characteristics:

- Weight/gallon: Part A - 10.4 lb / 4.7 Kg; Part B - 9.7 lb / 4.4Kg
- 100% Solids
- Color: Translucent Amber
- Pot Life: 1 Hour
- Hardening Time: 2 Hours at 72°F (22°C)
- Hardness (Shore A): 57-60
- Elongation: 150-200%
- Tensile Strength (psi): 200-220
- Viscosity (cPs): 2,290
- Density (g/cm<sup>3</sup>): 1.2

*\*The above information is based upon laboratory testing. Users are urged to test the product under their own conditions.*

### Instructions:

- Mix 2 parts by volume of Aboseal 8104-12 Part A with 1 part of Aboseal 8104-12 Part B.
- Mix in sand or aggregate for grout applications of filling and resurfacing.
- Refer to detailed instructions accompanying product.

### Packaging:

- 6 Quart Kit
- 6 Gallon Kit

#### LIMITED WARRANTY

*As uses and applications of this product are beyond the control of the manufacturer, all warranties, including the implied warranties of merchantability and fitness for a particular purpose, are excluded. In the event of manufacturing defects in the product, purchasers' remedies are limited to the replacement of the product or the refund of its purchase price. Liability for consequential damages is expressly excluded.*
